

PROTECT YOUR BUSINESS

NAM Cyber Cover proactively helps you avoid large losses due to a cyber incident and reassure industry partners that your company is protected. This new program from the National Association of Manufacturers, combines cyber insurance with proactive monitoring to help you minimize risk and respond swiftly to any incidents.

Start with a snapshot of your risk profile and see how you stack up against others in your space with a complimentary Cyber Risk Assessment (CRA) - highlights vulnerabilities and remediations to help keep data protected.

IMMEDIATE RESPONSE

Incident Response

Coalition's in-house staff of incident responders, forensic specialists, and security engineers respond in minutes, not days, to help you recover from network intrusions, ransomware, and business interruptions.

In-House Claims Team

Our experts include privacy & data breach attorneys who help you navigate the recovery process, including acquiring lost funds, managing vendors and law enforcement, and ensuring you receive funds quickly.

Complimentary Security Tools & Discounted Services

Access Coalition's partner ecosystem for discounted security solutions and services, including security awareness training, malware prevention, and more.

COMPREHENSIVE COVERAGE

Protect the Value of Your Entire Business

NAM Cyber Cover protects your data and assets — we cover the expenses to defend you, as well as damages resulting from a liability to a 3rd party or for regulatory fines and penalties. Additionally, we pay for the costs to respond to a breach, such as legal fees, public relations experts, and customer notification costs, among others.

Coverage Tailored to Manufacturers' Needs

NAM Cyber Cover includes pollution, bodily injury, and property damage coverage. Business interruption and contingent business interruption reimburses lost revenue while your company recovers from a cyber event.

Zero Dollar SIR for Incident Response

The \$0 SIR for Coalition Incident Response endorsement amends coverage to eliminate your Self Insured Retention (SIR) for the costs of services provided by our in-house incident response team.

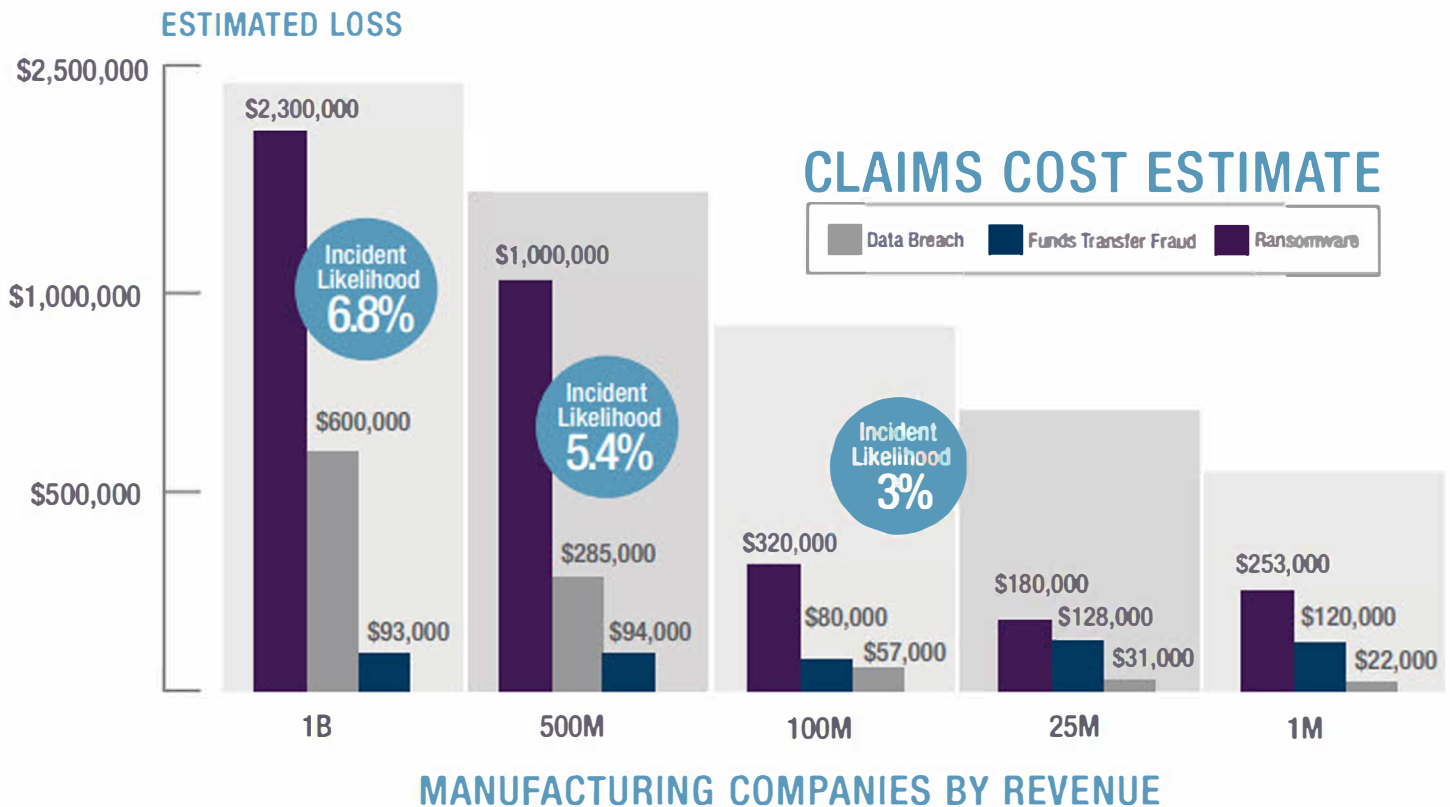

Pay on Your Behalf

In the event of a cyber incident, NAM Cyber Cover pays upfront costs instead of you paying out of pocket.

“NAM Cyber Cover was cost competitive with other options out there,” explained Erik Hash, General counsel, Behlen Mfg. Co. “The other part that really intrigued us was that it wasn’t just an insurance policy. You don’t just put it in place and wait for something bad to happen. They have tools that provide us the ability to do scans and check our systems. They’re proactive in helping put things in place to keep us secure.”

How Much Could a Cyber Incident Cost You? A LOT.

A \$1 Million manufacturing business could pay **\$253,000 in ransomware attacks** – that’s **over 25% of annual revenue**

* Some numbers are rounded and several assumptions were made about the organizations for the modeling. Data is from multiple sources, including Coalition’s own data. Actual numbers may vary significantly from calculator estimates based on additional factors for a given business. The data provided is for informational and educational purposes only.
